Notes

hello! ive been having massive writer's block and decided to write what i assume will have just 3 chapters of y/n x little king john
i havent watched the flood in a long time and dont really remember much, all that i want to say is its continuing off of rbg dreams minecraft with a mix and mash of sad lkj.

Little King John didn't ask for a life like this. His powers only originated because of cruel experiments. He was nothing more than a lab rat.

One day, he escaped.

He met a bright yellow (and just as ecstatic as bright as that color was) rat named Ratboy Genius, along with his girlfriend Summer Solstice Baby. Truth is, at the lab John did not have a name, he was just referred to as a test subject.

If these two people have three words for a name, he thought, his name would be that too! Problem is, John took the second word of his name too seriously.

KING

John had found a small birdbox that would work as a crown, as well as some doll clothes that would work perfectly for his king theme. With the aid of Ratboy and Baby, the three built a wonderful castle fit for a king.

Years went by, and the three interacted from time to time.

Except when John felt something strange. Some sick twist in his stomach came whenever he came near Baby. Could it be the feeling he'd heard of on TV everywhere, love? So how do you express love? John then had an idea, a terrible idea.

"They truly cared about me at the lab." The pink rat thought aloud, "Sure I might have not had a name, but they fed me and played with me. So is the way to express love through capture?"

Days after days went by, and the trio grew closer than before. As they were close, John took this to be the perfect opportunity to show his love for Baby. He grabbed the black haired girl with his long arms and dragged her away to his kingdom.

Weeks after Baby's disappearance, Old Frog and Green Monster found a way to rescue her and return her to Ratboy.

John was *not* having it. He saw the girl slip out of his clutches as she swam away singing, riding the Old Frog. She was meant to be his! What went wrong? Wasn't this how you express your care? It was getting to his nerves.

Ratboy now viewed John as nothing more than a villain, a cliché power hungry king who wanted nothing but a queen to join him. "Genius" certainly didn't suit the eccentric young rat.

As John grew to become a young adult, he'd discovered a passion for someone else. That someone else was none other than you.
